Forecast for Monday 16 Nov 2020

Weather: Mostly cloudy overnight with showers, these dying out towards dawn. A rather cloudy start to the morning but cloud breaking and lifting with sunny spells developing through the morning. Cloud increases from the west through the afternoon with outbreaks of occasionally heavy rain developing in the evening.

Chance of cloud free mountain/hill tops above 600m: Little chance at dawn with periods of cloud around 600m but becoming close to 100% through the morning with cloud becoming more occasional and generally lifting above the summits. Chances in the west fall close to zero again through the late afternoon and evening, with cloud becoming periods above 600m with patches below.

Visibility: Good or very good, but falling to just a few kilometres in heavier rain.
